

Hi Sameer,

About 15 years ago, Pradip & I embarked on a mission of restoring our heritage home. That is, room by room every year, so as to have budgetary control and also reduce the chaos within as we live in the place.

Earlier this year, when we were deciding to do up our Main Hall and Master Bedroom, Pradip came up with an idea of replacing the existing Age-Old Wooden Windows, which were spoiled due to Termite Attack, with uPVC Window's from FabAstra.

I was very disappointed with his suggestion to say the least, as in my mind, uPVC was like Aluminium. And thus not just a bit crude, but also that the same would not blend with our 350+ year old Heritage House, which is built on Indo-Portuguese Architectural blend.

However, when the sample door came, I was a little bit assured but still confused, anxious & perturbed.

But now that the job is completed, I am left speechless and utterly astonished, positively, to say the least. The joinery, the finish is just perfeito.

Infact my brother & sister who visited us, thought they were wood and were really appreciable of the finesse, and were all ga-ga about them.

We are extremely grateful to FabAstra for the superb job done of ensuring that the heritage look of our home is maintained.

Dev boreem korumm. Thanks a million.

Dear Mr Sameer Lad,

Your contract to supply and install double glazed windows at my residence in Windsor Villa is now completed. The installation was professionally done using Walnut Brown lamination with diverse collection of modules like Sliding, French, Double Top-hung styles.

It has helped greatly in sound reduction and is aesthetically proficient. I extend my compliments to you and your team and wish you the best.

Kind regards,

Dr. Anita Kamath Dudhane M.D., Ph. D.,
Consultant Allergist & Clinical Immunologist

22/6/2018

I had windows installed by Fabastra
and have found them to be
excellent. Even with the advent
of monsoon + strong winds, the
windows have been completely water
proof. We face the west and therefore
get fading rains. This has made me
a very satisfied customer.

Dear Sameer,

It gives me immense pleasure to inform you that your well trained installation team has nicely completed installation of uPVC Lift & Slide door, sliding doors & casement windows at my Reis Magos site. I am very much impressed with the way the whole project was carried out, with great care, diligence, promptness of services and above all with the quality of your product you have installed.

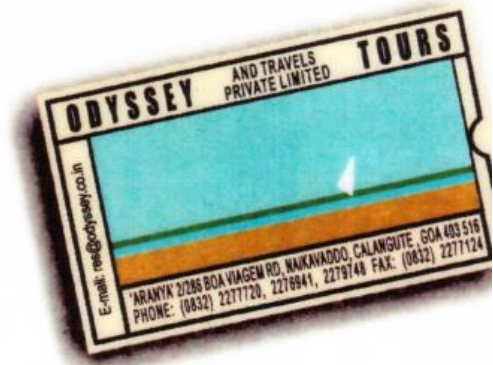

As I know you personally, you are in this business since 2007 & dealt with you on a couple of projects in Goa from your Pune based factory, I experienced betterment in the professionalism with your Mumbai based new company Fabastra.

I would not hesitate to recommend your product & services to any of your potential customers & would like to continue using your products for my upcoming projects.

I wish you best of everything for your future endeavors.

Dear Sameer,

I wish to thank Fabastra for installing UPVC doors and windows at our farmhouse in Goa.

Last year you installed similar doors and windows at our ocean-facing penthouse flat at Versova. We found the windows perfectly waterproof and the double glazed windows keep the street noise totally out whilst keeping cool air in.

Since we had a very positive experience with UPVC products in Bombay, we were encouraged to use the same product in Goa too even though we initially preferred to use real wood for the doors and windows of our farmhouse.

What really convinced us was the fact that you could provide a Golden Oak laminate of the windows and doors which give them a very real wood-alike finish. If we wouldn't tell that the product is UPVC, everyone would think it is real wood!

This time we used a mixture of sliding doors and windows as well as fixed, one-side opening and top-hung windows, and we're happy with all of them. The greatest benefit is that, unlike with wood varnish, there will be no future maintenance cost.

The entire process from booking to installation was very smooth again. So I must compliment you and your team for another job well done!

22nd August 2012

Dear Sameer, Jay,

As you know, at my house located in Oxford Hallmark , Lane 7 Koregaon Park, Pune, I had major concerns about noise disturbance for two main reasons

- The apartment is facing the main lane, causing entire traffic noise being transferred through windows
- Marriage hall opposite the apartment causing unbearable loud music being transferred through windows

I am happy to inform you about the following comparative analysis of sound readings recorded by me on my Decibel Meter, subsequent to the installation of Fabastra uPVC windows in my bed-room in the month June 2012.

Both bed-rooms (windows open): 80db

Bed room with FabAstra uPVC (windows closed): 39db

Bed room with Aluminum (windows closed): 71db

Further, during monsoon we experienced that the FabAstra windows are leak-proof and completely air tight.

As such, I am equally satisfied with the installation quality of your product and the desired skill sets of your team. FabAstra Products & Services are "value for money"

I would not hesitate to recommend FabAstra Windows to any potential customers as a good solution and wish you all success in your sincere endeavors.

Best regards,

Dear Mr. Sameer Lad

With following few words of appreciation, I hereby wish to acknowledge your patronage towards achieving goal of building a Hollywood-inspired theme hotel only the second in the world after Planet Hollywood, Las Vegas, spreading across 10 acres, with worldclass amenities and facilities, in Utorda, Goa.

I hereby express my sense of utmost happiness & content having you as a part of project's world-class construction team catering to UPVC windows & doors requirements of Sliding, Casement, French & Picture windows installed in Gym, Speciality Restaurant, Coffee Shop, Transit Bar, Cigar Lounge, Spa, Banquet & Business Centre etc. at the site.

To be more specific, I highly appreciate following qualities embeded in you, which will take your organization to a different level in near future,

- 1) Very high standards of discipline & professionalism shown at every stage of operation right from concurrent designs, providing mock-ups to finishing touches.
- 2) Extremely prompt delivery, strictly adhering to time schedules.
- 3) Highly professional & systematic style of order execution.
- 4) Very high& impeccable standards of product quality & installation.
- 5) Top class in house installation team.

I would be very happy to recommend you to anyone having similar window requirements in future.

I wish you & your team an outstanding future in the field of window making for a long time to come.

Best regards,

Dear Sameer,

We would like to express our deep satisfaction with the job delivered by you & your team at my residence at 'Lovely Home', Cuffe Parade, Mumbai.

The work was done in a highly professional manner contributing to the reducing sound from outside to a great extent and your innovative window solutions also helped with my aesthetics & beauty.

Please accept our sincerest gratitude for the superior job you have done & we will definitely work with you'll again in the future.

Thanking you,

With Kind Regards,

Letter of appreciation

We have replaced all the windows of our factory in Ranjangaon from Aluminium to uPVC.

Fabastra Impex Pvt Limited, Dombivli, Thane has executed the full work order during April 2012.

We are delighted with their services and found that the company has sound processes in place for entire order execution from inquiry, technical discussion, quotation, commercial finalization, production & installation.

Not only the Fabastra uPVC windows as a product are of better quality but their in-house installation team as well is highly skillful.

Our order has completed as per agreed time duration committed by them.

We are happy to have dealt with FabAstra team & found the product worth and value for money

We wish them all the very best and recommend them as Quality Windows supplier.
